

Love What **IC**

Class Spotlight: Second Grade

A lot of big milestones for young Catholics occur in second grade. They have received First Reconciliation, and are preparing for First Holy Communion.

Practicing confessions... Not real sins of course 😊

Second graders work so hard they occasionally need a brain break! Dancing is always a favorite.

Learning is fun, especially when working with friends.

Catholic Schools Week

Although Catholic Schools Week was cut short because of the weather, we still had lots of fun. It is always great to celebrate such a great school!

Immaculate Conception School News

Archery Tournament

On Saturday, February 12th, Immaculate Conception School hosted its 6th Annual Archery Invitational tournament with 163 students participating from 9 schools in the region, including teams from five Catholic schools.

ICS archery coach Jake Hindman said the archery program at IC provides a great opportunity for students. "Archery is a lifetime sport and teaches focus, teamwork, confidence, and boosts self esteem. All students can excel at archery." All participating ICS students have now qualified for the state tournament.

ICS began its archery program in 2014 and began hosting the invitational tournament in 2017. The tournament is part of the Missouri National Archery in the Schools (MoNASP) program, which is sponsored by the Missouri Department of Conservation, and helps build stronger, more confident, and accomplished kids through archery.

Next bulletin insert will celebrate our outstanding, undefeated Lady Eagles!
